

Thank you for your interest in our school. We are committed to following the Montessori approach in order to provide you and your children with the best possible learning environment. Our students become great leaders who make positive contributions to society. I would like to offer these simple, yet profound reasons for choosing a Montessori education:

- ✓ Direct, hands-on experience with practical mechanics, everyday tools, daily chores, and real world tasks and projects.
- ✓ An emphasis on cultural literacy, history, geography, the lives of famous people, great inventions, and great poetry and literature.
- ✓ Molding students into people who are incredibly intelligent, creative, and forward thinking.
- ✓ Cultivating the dynamic blend of people skills, the ability to organize and coordinate projects, and the innovation that our workforce and political arenas currently have a demand for.
- ✓ A carefully prepared environment rewards curiosity and creativity, instilling confidence and independence.
- ✓ Continuity in the materials allow students to master one level and move on to the next with ease, learning how to integrate new concepts, analyze data, and think critically.
- ✓ A safe, caring community which produces exceptionally compassionate, empathetic students who are sensitive to the natural world and the human condition.

Tuition for 2011 – 2012 academic year is as follows:
